LIVESTOCK FARMING AND ONE HEALTH APPROACH

WEBINAR

Animal welfare in a One Health approach

May the 21th 1400 to 1500 (CET)

Hans ERHARD
Dipl.-Ing., MSc, PhD
AgroParisTech, France

The webinar aims to raise participant’s awareness of animal welfare within the One Health and One Welfare frameworks, highlighting the interconnections between animal and human, physical and mental well-being. The webinar will address intensive broiler production, low-stress handling techniques and alternatives to early mother-offspring separation.
